Astral Pay adds Debit & Credit Card Payments to

Dynamics 365 Business Central

Astral Pay is an extension that links your Stripe Merchant Account to Business Central.

It allows you to take Debit & Credit Card payments using Stripe, automatically importing the transaction into Business Central and posting to the Bank and Customer Ledgers.

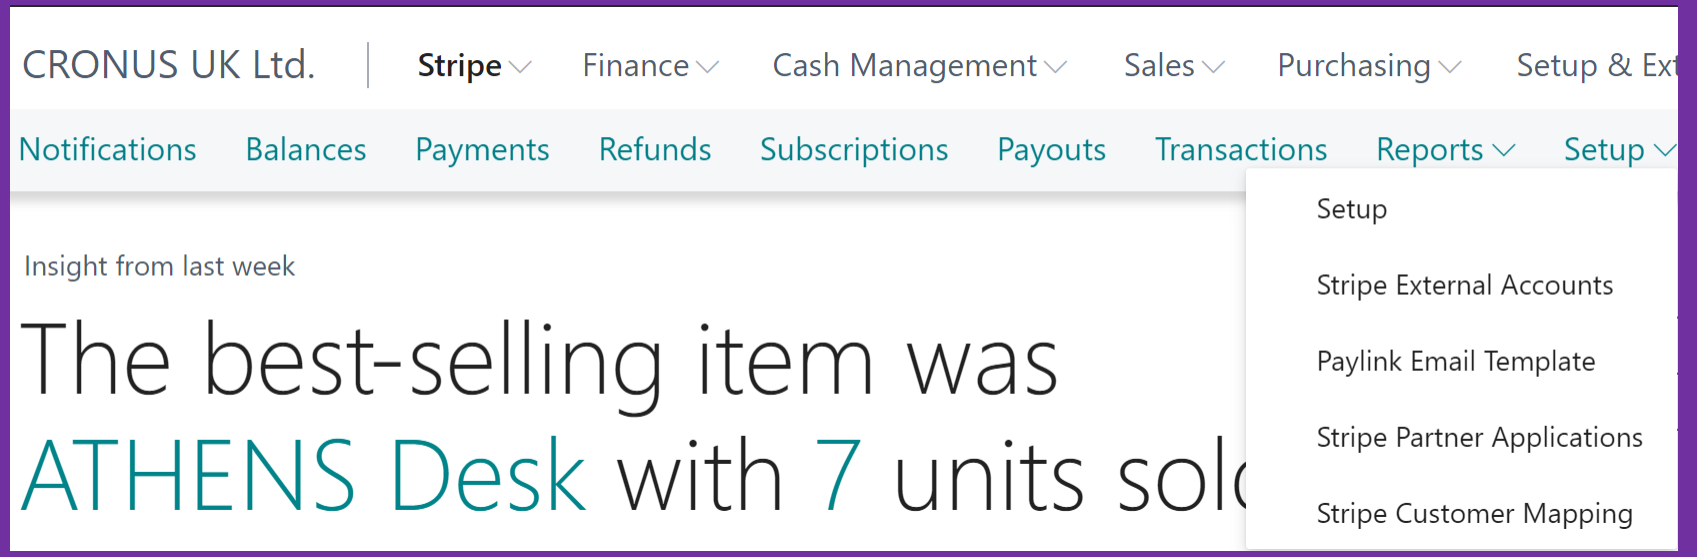
THE ASTRAL PAY ADVANTAGES...

Take Payments
Process Debit/Credit Card payments via your Stripe account directly in Business Central.

Improve Cash Flow
Give your Customers the flexibility by being able to pay by Credit Card.

Save Time
Takes care of recording transaction and fees, while the premium version also processes transactions that are not originated from Astral Pay.

ASTRAL PAY FEATURES



PAYMENTS
Take Debit/Credit Card payments directly in Business Central.

REFUNDS

Astral Pay

Pay with Stripe (NOTE: This is a test invoice. Therefore, no actual money transfer will be made.)

PAY WITH STRIPE PAYLINK

Add a “Pay with Stripe” paylink to Sales documents.

STRIPE CURRENCIES

Stripe supports processing charges in 135+ currencies allowing you to present prices in a customer's native currency.

Doing so can improve sales and help customers avoid conversion costs.

STRIPE BALANCES

When payments are collected from your customers, the funds are placed in to a 'Stripe Balance' account, and will remain there until they are available to be paid out.

The 'Stripe Balance' is treated as a bank account in Business Central, meaning that the payment is recorded to the Customer Ledger even though the funds haven't yet hit your external Bank Account.

STRIPE THIRD PARTY PARTNER APPLICATIONS

Stripe has many third-party integrations.

Each time a payment is made within Stripe, it has a reference to the app that created it.

Astral Pay allows you to bring payments in from other applications, saving you processing time.
